

WELCOME TO THIRD GRADE

Green Hope Elementary

Monday 20th October '14

Classroom News: *TIMES*

Math:

We are learning how to use multiplication and division within 100 to solve word problems in situations involving equal groups, arrays, and measurement quantities, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem. **This means that everyone will have to learn their times tables!**

Language Arts:

We are learning how to recount stories, including **fables and folktales, and myths** from diverse cultures: determine the central message, lesson, or moral and explain how it is conveyed through key details in the text.

Science:

We are learning about the function of the following plant structures as it relates to the survival of plants in their environment:

- Roots -absorb nutrients
- Stems -provide support
- Leaves - synthesize food
- Flowers - attract pollinators and produce seed for reproduction

Writing:

As a class, we are revising and editing our personal narratives. I can't wait to see them published!

Points to remember:

Dear Parents,

Case 21 will be administered tomorrow. This quarter will be Math.

Writing assignments were wonderful to read from last week. Please be aware that another one will come home this week.

Multiplication and Division is the unit for the next few weeks. This week we are learning our 9's, 3's, 4's, 0's and 1's. All the links are on my website.

Thank you to **Mrs Moore** for coming in to perform Reading Conferences with the class. They loved talking about their books and setting new goals.

Thank you to **Mrs Bloomfield** for helping me organize my library! It is such an undertaking to keep up with my 1,000+ books, especially when the children read as many books as they do!

What's our SPECIAL?

- Specials #2 - PE1
- Music
- Specials #4 - Counseling
- Art

Homework

Monday 20th October

Reading: Read for 20-30 minutes. Log onto www.Reading-Rewards.com and log your reading minutes.
